## Location

The site is located within the Horsehay and Lightmoor Ward of Telford some 4 miles south west of Telford Town Centre and sits within the extent of Lightmoor Village which provides immediate access to a range of educational, retail and leisure services and facilities.

Whilst sitting within the Lightmoor Village masterplan area the site enjoys a secluded position and benefits from being separated from areas elected for future residential development with the land immediately surrounding the property to the south, west and north being allocated for use as either landscaped areas or formal parks.

Situated in close proximity to the A5223 easy access is provided to Junction 6 of the M54, situated some 3.5 miles to the north with Shrewsbury and Birmingham being located approximately 16 miles to the west and 37 miles to the east respectively. Of further note the UNESCO World Heritage Site of Ironbridge Gorge is also located only some 3 miles to the south.

In addition Lightmoor Way which leads to Little Flint supports a number of bus routes providing links to Telford Town Centre, Ironbridge and Madeley and offers good accessibility to Telford Central train station which is located approximately 4.5 miles to the north east, providing regular services to both Shrewsbury and Birmingham.

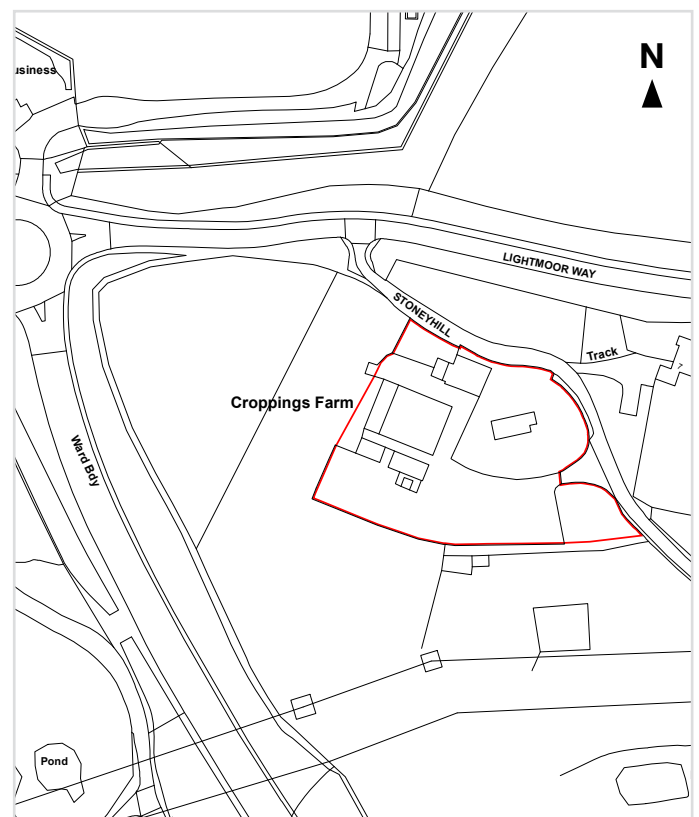

Located to the east of the site and accessed via Stoneyhill are two detached dwellings which are set back from the highway within their own sizeable plots. The area surrounding the site to the south and west largely consists of grassed open space with grassed open space again located to the north of Lightmoor Way.

## Description

The site extends to 0.58 hectares (1.43 acres) and comprises of a former farmhouse with gardens and associated farm outbuildings which once formed part of a wider agricultural smallholding. The site is bordered to the north and east by Stoneyhill, a recognised public right of way which not only provides vehicular access to the site but also to a small number of other residential dwellings to the east. The majority of the site is bound by a combination of either stock proof or post and rail timber fencing although an established hedgerow forms a part of the northern boundary with Stoneyhill.

The topography of the site is generally flat although beyond the site and immediately to the south the ground begins to fall in a southerly direction towards the A4169.

## VAT

The site has been elected for VAT.

## Legal costs

Each party are to be responsible for their own legal costs incurred in any transaction.

## Planning

The site benefits from an outline planning consent (TWC/2018/0524) for demolition of the existing farmhouse and associated outbuildings and development of 8 residential dwellings with all other matters reserved.

Consent was formally granted for the aforementioned development in January 2019.
